Dsmith478: Mr. Williams, my apologies
Deepshoter: what dogs ken?
Dsmith478: apologies

» man typos hehe

Krengic: Wait, come to think of it, because I spent so much time playing them, I grew up socially maladjusted!

Jaybertx: I didn't have any idea that there was a second way to kill arnoid

Dented1620: lol true

Meatrace: 2>1

Philhassey: I think i played through sq3 in one afternoon when i got it. was my favorite of the series.

David6858: BACC000CCKK!!!
Rlcola: you guys had cots in your office lol
Krengic: Astro chicken, much better than lunar lander
Deepshoter: arcade games in adventure games...classic
Adriaantv: The handling was so random in Astro Chicken. Loved it!
Bighairymarty314: I like how in the promotional stand alone version of Astro Chicken, the secret message still appears for a split second
Meatrace: still waiting for the astro chicken arcade cabinet!
Robbo008: So Ken was a good boss?
Dewey199: wtg Doug
Krengic: Astro Chicken on XBLA.
Mrkenallen: KW how did you attract so much great talent to move to Oakhurst?
Deepshoter: money id bet lol
Dsmith478: bwahaha
Tomimt: SQ3 is actually a pretty short game
Dewey199: oh no, copy protection
Mikem1982: short but sweet
Hansoloadventures: Hey Mark, your Buck Rogers love in the ASTRO *** design did not go unnoticed, sir! LOVE it!
Rlcola: it wasnt \$
Anaximandus: who could read the message without the ring?
Rlcola: according to KA
Bradvr4: Took me 15 hours from when I cracked shrink wrap.. played all the way through
Dsmith478: the greatest arcade game EVER
Skyefyre: I read it without the ring the first time.
Dsmith478: lolol
Decafjedi: The Talking Bear really is a sight to behold.
Mjomble: "Help us! We are being held captive..."
Vincismurf: did you all every associate with early lucas games people, like Zac Mrcracken and Maniac Mansion
Cocodyne: game tie-in here.. Mandatory arcade sequence lol
Mikem1982: There was another Astro Chicken in SQ4 wasnt there? I think I remember that one being even better
Anaximandus: my dad just read it. haha
Caboken: MrKenAllen .. are you "the" Ken Allen? .. as in music Ken? .. Sierra had an amazing reputation .. which made it where people wanted to be
Meatrace: come on, now balance it out and talk some smack about Ken

Meowgod: oh no
Caboken: Grin .. I didn't mean to derail the conversation .. I'll be quiet...
It's Scott and Mark's show

Ricola: StreetFighter Ken here
Meowgod: i missed it all
Cocodyne: QA at Sierra! We never hear about them
Meowgod: *cries*
Dewey199: I love this perspective
Slipgate0: I've heard that Monolith Burger was potentially some legal trouble. True?
Mrkenallen: Our QA peeps were awesome
Caboken: (thank you)
Krengic: We like your insights Ken
Andromedan_denizen: yeah it's a whole sierra reunion
Slipgate0: Like I said, Ken, you headed a company that made many games I loved
Mjomble: That's like saying Scott derailed our Hangout :D
Pedasn: but the fans have been asking since the Larry KS to talk with Ken, so Thank You for beeing here.
Caboken: We wanted to go to the woods to raise our kids.. thought it would be better for them than LA
Dsmith478: Thanks to ken and Sierra
Bradvr4: Chris can you save the chat logs too on these?
Dsmith478: truly
Ptraci: Hey Meowgod, you missed the beginning
Cocodyne: Perfect weather?
Deepshoter: no we want more!!
Ricola: what was the deal with Coarsegold?
Hegario: "I just flew here from Coarsegold and boy are my arms tired"
Ricola: it was mentioned in FFPF
Mrkenallen: no orange air
Cocodyne: lol
Anaximandus: yes. I played "Red Baron" for hours and hours
Caboken: However.. it didnt work out as planned .. Oakhurst had "issues" ...
Marsilies: I've been copying-and-pasting
Skyefyre: You can't. It crops it once there's so much chatter
Marsilies: the chat window
Caboken: I think overall it was bad for the kids..
Hansoloadventures: Didn't you guys have to leave Oakhurst because it was too small?
Caboken: Right..
» I leave for Turkey on Wednesday
Deepshoter: post the chatbox them in the spaceuqest.net forums
Meatrace: ooooooh talking bear!
Musicallyinspired: lol
Deepshoter: Turkey?
Slipgate0: I have some fragments of the chat logged but it doesn't keep enough history for me to keep it all, or all in order.
Ricola: so the HQ IS still standing?!

Deepshoter: o Turkey lol
Dewey199: AstroTurkey
Cocodyne: LOL
Marsilies: Yeah, will have to sort it out
Andromedan_denizen: going to copy all and paste periodically
Computer_ronin: Normal Turkey, or Astro Turkey?
Tawmis: Wouldn't you be illegal aliens being from Andromeda and all?
Deepshoter: whose that handsome man!
Caboken: www.kensblog.com .. I'm circumnavigating a boat .. my second 15 min of fame.. doing lots of boating these days.. (and books on boating)

Musicallyinspired: hahaha
Pcj_: your belly button?
Bradvr4: lol
Computer_ronin: Ken boring? Bah!
Dented1620: Caboken Terry Whittingham says hi, he is still trying to get a job at Sierra since he was 11 (1990)
David6858: How much do I have to pledge to get a life sized Aluminum? Mallard
Anaximandus: wash your hands afterwards, please
Marsilies: It will be good to hear from Ken about his guest appearance at the end of the game
Mrkenallen: we need to get Doug to participate in this chat room next time
Meowgod: when will the SQ 4 stream?
Tomimt: it makes me thirsty as well
Caboken: I mostly remember wanting to hang on in development, to watch Leisure-Suit Larry, and SQ in development.. my favorite games.. got in lots of trouble with Roberta because I seemed to like them better than Kings Quest
Robbo008: You guys need Blue Serpent IPA :D
Dewey199: lol Ken
Dsmith478: oh man lolol
Musicallyinspired: Lol Ken excellent
Robbo008: www.ophidianbrewing.com
Hegario: haha ken :D
Ptraci: wear underwear is perhaps something you expect to have to type in a Larry game rather than a SQ XD
Ricola: yeah, but Roberta rly helped out Scott
» he said
Dsmith478: Sorry, Dear, I like these games batter
Krengic: lol Ken

Meowgod: did they say when they will do sq 4?
Deepshoter: lol she had the inside advantage on Sierra lol
Bassbert: Haha! Ken, Roberta had nothing to be jealous of. Her games were equally great.
Bighairymarty314: bit of a bugger that revisiting SQ3 via SQ4 results in instant death
Meatrace: so how much of that 500k kickstarter goal is dedicated to beer? 30-40k?
Oldadventuregamer83: lol @ Ken Williams, oh man.
Dsmith478: King's Quest were legendary and still are
Deepshoter: SQ was always better than KQ *runs away*
Ricola: Telltale better not *** it up
Dsmith478: hahaha
Meowgod: am i being ignored?
Pcj_: breaking: scott murphy calls SQ a "fun game"
Mrkenallen: Scott do you have Doug O's contact info?
Marsilies: SQ was funnier, but I think that was by design
Krengic: KQ III and VI were my favorites from that series.
Computer_ronin: I may not have been much of a Sierra kid (didn't play much computer games growing up), but I have become an avid fan of your work.
Ptraci: it was a design thing, yes
Incredibleview: KQ6 was a great effort
Jaybertx: mystery house!
Bighairymarty314: Larry 6 was the first Sierra adventure I had heard of. noticed it in a shop when I was 11
Caboken: Yup . the "good old" days! ..
Dented1620: you guys have gotta document all these stories
Meowgod: right
Krengic: I think KQ III was my first game...that or Black Cauldron.
David6858: I liked KQ5 and 6 a lot...
Warbirdgames: To try and sell a fortran compiler, right? :D

--

tomimt: I love KQ3, 4 and 5 the most
deepshoter: my first sierra game was LSL, pirated ofc on my 486
dewey199: QFG1/2 were so cool
tawmis: Brown.
deepshoter: LSL1
caboken: I'm ruining your broadcast .. didn't mean to do that!..
tawmis: It eventually went blond.
thezombiepug: Loved Roberta's work on Colonel's Bequest and Amon Ra.
warbirdgames: Who knew they'd rather have the computer game. So cool.
tawmis: Because blondes have more fun.
chrono85: It looks light brown.
meowgod: i neverplayed lsl

meatrace: ruining? it's added value
pedasn: you are making this broadcast richer...
krengic: I do remember that KQ III was pirated, so we could never beat it (when I was old enough to have a job, I did right and bought the first collection)
bighairymarty314: LSL1 was my first game too
8:31 dsmith478: nonsense this is a real honor
8:31 david6858: This is cool!
vincismurf: OMG Black Cauldren, how did you get that contract

dsmith478: We got Sierra Vets in da house!

musicallyinspired: lol
deepshoter: yup
bradvr4: ken can break his f5 key too with us
marsilies: Or a Reddit AMA?
musicallyinspired: Yeah, both Kens
dewey199: two Kens
hegario: My first was LSL 2, convincing my parents to buy it wasn't easy
froggye: musical ken too
cocodyne: I've seen his backer comments, there's huge numbers of comments there
deepshoter: LSL2 wsa hard
warbirdgames: Everyone bring your wallets
cocodyne: got buried
dsmith478: This is phenominal and history in the making!
musicallyinspired: Too bad we didn't have both Marks
incredibleview: The two Kens. Together at last
anaximandus: looks like a grill
mrkenallen: lol
tomimt: It must be great feeling for Ken to see the old gang back in game
nonookee: Ken, it's really great to have you here!
bighairymarty314: i remember i had a cd full of walkthroughs. i read the LSL ones and imagined the scenarios in LSL7 sytle art
vohaul: MrKenAllen, I know about Doug is on Facebook. He's a friend on my page. Shockley rides bikes with him too.
pcj_: mark's got a thing for rocks
deepshoter: need roberta to make it complete, but shes away
caboken: OK .. cool .. I'm mostly paying bills .. we leave for four months on Wednesday.. so, am watching this, but also packing, and paying bills .. (but, didn't want to miss this)
bt519: Who the hell is Ken Williams?
bighairymarty314: then i eventually played the games
computer_ronin: I found the stream link from a retweet, to tell the truth
froggye: It was meant to be, considering the cover of SQ2
musicallyinspired: This kind of reminds me of that Sierra Renunion thing with Ken ,Al, Roberta, and Scott years ago
dented1620: is anyone saving the chatroom dialogue? It only saves a set amount of lines
andromedan_denizen: yeah the volcanic rocks in the prototypes are well done
Mark
lightspeeder: Right. I'm back. What'd I miss?
dsmith478: bt519! Blasphemy!! lol
musicallyinspired: When Ken ran that online radio thing?
» or whatever
deepshoter: caboken is ken
marsilies: Mark's favorite scene from Star Wars must be the asteroid chase in Empire
bt519: Heheh....
ptraci: LSL7 is the one that didn't hold my attention at all

bt519: I am kidding, of course.
dsmith478: Whi is KEN? Obsurd! hahaha
caboken: Nope.. cruising on our boat (Turkey/Greece)
williamji: Nice conversation starter, I've got a thing for rock textures
andromedan_denizen: oh wow

andromedan_denizen: nice Ken
cocodyne: it's definitely the rebirth of adventure games!
jaybertx: You missed everything Lightspeed
meowgod: *crawls into the shadow and brood*
bt519: Ken Williams is that nice man who told me jokes in Lefty's bar.
musicallyinspired: Nice, KenAllen
dewey199: got so lost in those rocks
computer_ronin: I missed the point-and-click era in my youth, but I did play a good deal of Sierra's other games, which I loved
tomimt: save the Sierra, save the Adventure!
deepshoter: savce the kickstarter!
froggye: sierragamers.com
deepshoter: save
sickfiction: I love the yellow/black warning border!

cocodyne: Ken battles the elements at sea... an adventure every day
deepshoter: yay
andromedan_denizen: yeah! Hello Roberta!!!
incredibleview: They only made the one game?
mrkenallen: Hi Roberta
deepshoter: hello
warbirdgames: That's okay, you can take it into the future and pirate your future game. Problem solved.
caboken: OK ..going to talk to roberta .. will try to get her to say hi
anaximandus: hi Roberta!
musicallyinspired: *WAVE*
andromedan_denizen: <wave>
pedasn: Hello Roberta *pets dogs*

gordmcleod: awesome Caboken.
tomimt: hello ma'm
revanian_boomy: *wave*
krengic: Hi Roberta!
ptraci: Hi Roberta!
bighairymarty314: I'd be tempted to time travel back to the 80's and get a job at Sierra, but there's no evidence of my future self tampering with time like that =P
eddydrama: When I was a kid my dad would play Space Quests and Kings Quests and tell me the stories as bedtime stories. To this day I still love Sierra games.
deepshoter: web cam!
computer_ronin rolls out a red carpet

bt519: She's not on yet, boys! Down.... go easy!
thezombiepug: We want a new Laura Bow game!
chrono85: Hello Mr. Williams

musicallyinspired: lol
tawmis: lol
deepshoter: heh
andromedan_denizen: hahaha
sickfiction: hehe
oldadventuregamer83: Very funny, Mark.
meatrace: can we get a prototype that is nothing but gruesome deaths? and is unsolveable?
mjomble: You could use a Mark Crowe soundboard
bighairymarty314: i reckon the real reason there's more deaths in the early games is cause they were easier to animate in 16 colour =P
bassbert: No, you can't skip SQ4
cocodyne: < takes apart the Aluminum Malard's hyper drive
meowgod: i wonder what will SV parody this time though
tawmis: It's the lighting on the planet.
sickfiction: put the fan belt thingy back on

Bighairymarty314: it's a thermometer. it turns purple when it's hot =P
Mjumble: meowgod: Firefly, Avatar and Halo, among others
Incredibleview: How do you spoof Avatar?
Tawmis: How do you not?
Musicallyinspired: I really REALLY enjoy Mark's art
Jaybertx: I tried to die in the prototype before I actually tried to solve it
:D
Warbirdgames: cause it looks cool
Meatrace: the best spoof of Avatar is Avatar
Musicallyinspired: it's fantastic
Hegario: Avatar is a spoof already
» it's pocahontas in space
Dewey199: Avatarpits
